Kewaunee County Seeking Public Input on Land & Water Resource Management Plan

KEWAUNEE, WI – The Kewaunee County Land & Water Conservation Department (LWCD) is turning to the public for ideas and direction regarding their next 10-year plan concerning Land & Water Resource Management.

The public is asked to take a short online survey to assist the department with deciding the greatest environmental concerns in Kewaunee County along with the tools and strategies that could be used to have the best impact on these concerns.

“The concerns of the citizens are very important to setting the LWCD’s goals and objectives for the next 10 years, we want to know where our residents think we need to focus,” says Davina Bonness, Director of the Land & Water Conservation Department. “We’d also like to say thank you to everyone in advance for sharing their input.”

All information collected will be used for planning purposes only. Responses will be compiled together and not individually tracked.

To take the survey, visit https://uwex.co1.qualtrics.com/jfe/form/SV_d6b9vjk6b4V2qzj. If you have any questions about it, contact the department at (920) 845-1360.
