FOR IMMEDIATE RELEASE

June 16, 2020

Kewaunee County Part of Water Quality Webinar Series

KEWAUNEE COUNTY, WI - The Wisconsin Department of Natural Resources (DNR) is holding a series of webinars to introduce “Total Maximum Daily Loads for Total Phosphorus and Total Suspended Solids in the Northeast Lakeshore Basin” (TMDL).

The four-part series will begin on Thursday, June 25, 2020. It will provide an overview of the TMDL development process, TMDL implementation, and data sets used for the current watershed modeling effort. The data sets will be specific to the Ahnapee River, Kewaunee River, Twin Rivers, Manitowoc River & Sheboygan River watersheds.

Each webinar will include a question and answer session after the presentation.

This information was to be presented at a public meeting in April at the Kewaunee County Fairgrounds, but was cancelled due to COVID-19.

For additional details, visit the Wisconsin DNR website at www.dnr.wi.gov as well as the Kewaunee County website, www.kewauneeco.org.
